It is the intention of the company to crect a three-story brick and stone stable, sixty-three by one hundred feet, on one of the principal business streets. The stable will be equipped with none but the best turnouts, and everything will be run in modern andfirst class style. One of the latest improvements added to the stable will be an electric horse clearer. The machine has but precently been introduced, and is something entirely new to the west, and has but fairly been put in use in the east. The cleaner will be run by an electric motor, the power for which will be furnished by one of the electric light companies. With this apparatus 160 animals can be cleaned in a day.

The capital stock of the new company is \$100,000, divided into 1,000 shares of \$100 each. The following are the stockholders.

The officers of the company for the ensuing year are: A. G. Feil, president; Chas. A. Nelson, vice-president; John S. Lewis, secretary; O. E. Hill treasurer, the board of directors, which is constituted by all the stockholders.

About one-third of the population of Washington is colored, and this race furnishes what is known as the "poor class" of the city, yet it is a remarkable and significant fact that the average of intelligence is higher in Washington than in almost any other city in America. I presume to say there is not a city of Washington size in the United States where a greater percentage of the poor class can read and writer or, to turn to the moral phase of the matter, where there is so little

In the opinion of the author temperance does not consist solely of refraining from intoxicating deverages, but extends to other things. He says that food and drink have a common function and can no more be considered separately, in their ultimate bearings, than the two lobes of the brain in a mental act. One is merely the com-plement of the other, mutually interpene-trating, and together contributing what is necessary to save the body from daily waste. The evil and the cure are in the system itself. This is the second edition, and it comes as No. 2 in the "Popular Top-ics" series. GILBERT ELGAR'S SONS, By Harriet Riddle Davis, New York; G. P. Putnam's Sons.

The author is new to the reading world, but she begins well, giving us a pretty and pure story. It is not very strong nor are the characters particularly distinctive; but the tale is entertaining and will be found impressive. The volume is issued in the splendid style which marks the Putnams' publications.
